

**FOR IMMEDIATE RELEASE**

To: Vista Oaks MUD Customers  
From: Andrew Hunt, General Manager  
Subject: Voluntary Watering Restrictions – Drought Contingency Plan  
Date: 5/1/15

---

Vista Oaks residents:

Recently, the City of Round Rock notified Vista Oaks MUD that it has lifted Stage 1 of its drought contingency plan effective 4/29/15. Stage 1 included mandatory watering restrictions. This is as the result of the water levels of Lake Georgetown and Stillhouse Hollow Lake recovering to 100% capacity following rainfall in the Central Texas area. In accordance with its contract with the City of Round Rock and the District's Water Conservation and Drought Contingency Plan, Vista Oaks MUD has lifted Stage 1 of its drought contingency plan **effective May 1, 2015. The District is now in voluntary restrictions.**

Residents are asked to follow the provisions of the Stage 1 Watering Restrictions on a voluntary basis.

The Twice-Per-Week Voluntary Watering Restriction Schedule as follows:

1. Single Family Odd Addresses: **Wednesday & Saturday**
2. Single Family Even Addresses: **Thursday & Sunday**
3. All other type (HOA irrigation, etc.) customers: **Tuesday & Friday**

Residents are asked to continue to conserve water. If you have any questions regarding the restrictions, please don't hesitate to contact Crossroads Utility Services at 512-246-1400 or you can find the District's full drought contingency plan at [www.vistaoaksmud.com](http://www.vistaoaksmud.com).
